SUBMISSION	Send proposals to Tim McLain at mclain@byu.edu
REPORTING	Due by December 17 th of the first and second years of support* Reports can be completed by responding to this survey

DESCRIPTION

Mentored Research Grants (MRG) are intended to create strong mentored learning environments in the Ira A. Fulton College of Engineering. The focus of MRGs is involving undergraduates in excellent research. Research products (e.g. peer-reviewed publications) are expected outcomes. Proposals are competitive and will be reviewed by a college review committee using the criteria summarized below:

Necessary but not sufficient

- Focus on mentoring undergraduate students
- Consistent with faculty scholarship responsibilities
- Full-time faculty PI
- Scholarship outcomes (e.g. peer-reviewed publications)

Distinguishing Criteria

- Quality of mentoring experience
- Potential impact of work

A proposal cover-page template and additional instructions are attached. The template is also available as an MS Word document.

Please contact Tim McLain (associate dean) if you have any questions or require additional information.

* If the deadline falls on a weekend, it will be extended to the following business day.
